Post-Paid ANI customers
with credit limit

Cyneric + FreeSWITCH 

 Premier + VoIP Billing + Network QoS platform & services

Your Total Billing & Network Partner Solution

FreeSWITCH Billing Platform

Cyneric.com offers a complete VoIP billing solution customized to your business model, fully integrated with FreeSWITCH.

- Full integration with production FreeSWITCH
- Real time customer definition, authentication, accounting
- Centralized operations : customers, rates, routing
- Virtual DID, Call forwarding, web callback, sms callback, voicemail, fax applications, etc

Application uses with Cyneric VoIP Billing

Post-paid ANI customers, with credit limit

Based on ANI recognition or PIN, you can have customers calling to your platform, and automatically be recognized by Cyneric Billing.

Use

- You define an access number for the customers to call
- Customer calls the access number
- Billing authenticate the ANI, and asks for destination number
- Customer enters destination number
- Billing check credit, if destination is authorized, and informs FreeSWITCH the call is accepted/rejected
- FreeSWITCH connects the call with the carrier
- Customer hung up, and FreeSWITCH will send accounting to billing
- Billing will rate the call, and make it available to customer web portal
- You can have post-paid customers, with limited liability
- With Cyneric Billing, you generate the invoice and send to customer (printed, email)
